## Split (webapp)

### Description:

Split household bills with roommates, to figure out costs for a group vacation, or just to remember when a friend spots you for lunch, view your balances, track spending trends, set up email reminders for bills, and much more!

### User Stories

- As a new user I want to be able to register for an account so I can login/logout of my account
- As a registered user who is not interested in using the app anymore, I want to permanently delete my account.
- As a forgetful user I want to see the total money amount that I currently owe to everyone.
- As a user I want to be able to edit my profile to let others find me easier. (Name, picture, city, etc.)
- As a frequent user I want to be able to see the users I've recently interacted with.
- As a registered user I want to be able to search for other users.
- As a money concerned user I want to be able to send/request multiple users notifications instead one at a time. (Create groups)
- As a money concerned user I would like to pull up the history of my payments for the last 6-12 months
- As a money concerned user I want to send email notifications to people you've requested from to remind them.
- As a registered user I want to have my bills broken down into separate categories so I can see how I'm spending my money, or which users I send the most to.
- As a forgetful user I want to be able to make notes on my payments so I can see what I'm paying for later.
